Backpack mod for MCPE Minecraft PE players often complain about the lack of space for inventory when surviving in a cubic world away from home. Since the trunk cannot be carried, it always became a big problem. They are equipped with this set of three modifications. Vanilla bags and even backpacks make your life easier. Backpack. This accessory is suitable for the older versions of Minecraft Pocket Edition and at the same time the most complete. There are two different backpacks in the game that have different styles. The pack capacity varies greatly, some are 27 units and some are more like a bag with 54. Designing backpacks seems quite difficult for consumers. First you need to get a specific leather, connect it with threads, create a bound bark, then double it in the oven and finally scrape a small or large backpack. BAG Minecraft PE Bag mod has standard and simple features which together are its main advantage. Each backpack has its own inventory interface that appears when items are placed in it, and a beautiful, high-quality model. To use it, you have to climb on it and take it on your back. If you want to release something it must be placed on the floor, pressed and unfolded. Vanilla Backpacks Transform Vanilla backpacks for MCPE are the most interesting in the package offered. The bags that the player can use in this way are significantly different from all the others, since they are full-fledged mobs, namely replaced parrots. To get started, you need to go on a short trip around the world and find one of the backpacks, after which you need to go through the taming process with an emerald and paint it any color. After all the machinations, the backpack will jump onto your back and your inventory will be placed as if you are carrying a single chest. 24,305 views - 3 weeks ago - By TrueCowboy True Backpack Addon (1.19, 1.18) Download Links Looking for a reliable backpack for your belongings? Download Backpack Mod Minecraft PE: Have a long adventure in Tonne of Prey. Minecraft backpacks: All users generally feel problems with long distance travel which often occurs. Finding new underground channels, settlements, or pure underground mining requires a large portion of your supply. This is why backpack adjustments were invented. Minecraft PE players will finally have a place to hang out. Now you don't have to worry about running out of space in your pockets. Backpack addon This Minecraft Berock mod is one of the most innovative and sophisticated. According to the designer, his bags can do many different things that others never imagine. At first, you can store anything from chicken eggs to dirty blocks. There are no restrictions on the storage of items. Additionally, players can upgrade cases whenever they want. There are three capacities: small, medium and large. However, the most notable aspect is the backpack's ability to hold any liquid in Minecraft PE. For example, Look for a bucket of water or lava and a hand bag. Then click on the "Water/Lava" button. So it's not just a backpack, but also a barrel. Of course, you can remove the liquid later. Another interesting thing about this MCPE addon is how the security works. Normally, anyone can open the bag, but if you take a special belt, no one will. Many mods in one backpack. There is another addon for Minecraft PE that is almost the same as the previous one but slightly different. The previous plugin added living backpacks - these were a real asset in the game. But this time, products are products. You can make them using leather and any paint you want. Once you've done that, open and insert what you can. In the world of MCPE, there is plenty of space to transport your goods on long journeys. World.
