Já pensou em jogar GTA: Vice City online? Agora é possível Basta baixar este multiplayerNa década de 80, a cidade de Vice City (nome da cidade fictícia totalmente baseada na glamourosa e litorânea Miami) está tomada pelo crime organizado. Tommy Vercetti está tentando dar uma basta em sua carreira suja quando sente toda a pressão e dificuldade que a honestidade acarreta e, por isso, decide retornar ao mundo dos crimes.Porém esse retorno não será tão fácil quanto ele imagina. Alguns de seus companheiros se sentiram ofendidos, abandonados e traídos quando Vercetti os deixou, e agora farão de tudo para que o ex-comparsa não tenha uma vida fácil e, de preferência, nem vida tenha. Nessa atmosfera única se passa Grand Theft Auto: Vice City, onde o jogador entra na pele de Tommy para escapar das mais loucas enrascadas.O jogo é o quarto de uma série que, desde a primeira edição, lançada em 1997, faz extremo sucesso entre jogadores de todas as plataformas pelas quais passa. É difícil encontrar hoje um fã de games que não tenha passado horas em frente seu console favorito, deliciando-se nos gráficos arrojados e missões ousadas deste incrível game. A única crítica que sempre foi unânime para o jogo era: "pena que não tem multiplayer!".Não tinha. Agora basta instalar Vice City: Multiplayer e começar a atirar e roubar carros on-line. Até essa versão, a única opção habilitada é deathmatch, na qual vence o jogador que resistir mais tempo à morte.Quem sempre curtiu GTA, mas achava as missões muito fáceis e sempre desejou aventurar-se daquela maneira contra outros jogadores, não pode deixar de baixar essa modificação genial para um dos games de maior sucesso dos últimos 10 anos.
