Dimensions incorporates (px) 344 x 292.429 x 357.514 x 422.599 x 487DescriptionKonica Minolta Bizhub C220 C280 C360 Manual Ngix Service 2020/09/21 # 1 I purchased a Konica Minolta Bizhub C220 from a company to close its doors due to Covid. I am an end user, it's not a technician, but the network systems set up, so I think I can manage some of the things I need to do to get this copier operation. I set up in my office at home, because now I'm working from home due to Covid, and I thank full I still have a job. The unit has: DF-617 Reverse Automatic Document Power Supply EK-604 Interface Local Kit PC-207 Paper Cabinet SD-509 Saddle Sticher FS-527 Finisher PK-517 Drilling Kit JS-603 Separator Jobs Question: I HO Seen different "installation" sheets, on this website, which have from 10 to 20 pages to them. These seem to be for the initial printer configuration. I downloaded about 20 manuals from the Konica Minolta website, and have manual manual parts and service. Are there individual installation cards for the various parts of which I should look for? The ministers paper feed has 11 x 17 paper in tray 3, but every time you print, it is always said to A3 format paper. I thought you install this using the printer web interface, but I always ignore this when the mold. I looked for a manual on the control panel and how to use it, but can't find one ... how can I set this function? Thanks in advance Dan Marr 2020/09/21 # 2 Originally written by DM2-Inc I purchased a Konica Minolta Bizhub C220 from a company to close its doors due to Covid. You are right ow tray 11x17 modification to the copier control panel, "Touch card", select tray 3, "Change setting", 11x17 Thanks in advance Dan Marr you don't know how they were able to enter the retailer side of the Kon / min and get the service manuals and parts, but good to have for codes, etc. There are many "user" manuals on the regular Kon / min website. The service manuals do not get to use the machine, the user settings, the control panel keys, etc. You will find all this in the advanced operator's operators & manuals. This is a good car, so it should work well for you. Good luck with it. 09-21-2020 # 4 Copyman The service manual I have version 1.0, and is dated 2009.07, so it could be a little dated, but it should have what I need. As for the manuals to go, what I have below, but I don't have one entitled "... the operators & manuals of the advanced operator ..." You don't have a link to it is not true? IMHO first main test unit even before starting adding options. A tree recognizes from the fruit of him, a man from the actions of him. A good action never loses, those who sow court, collects friendship, and those who love plants collects kindness. Blessed Those who can laugh at yourself, because they don't cease to be amused. 09-21-2020 # 7 Written by: DM2-Inc Copyman The service manual I have version 1.0, and is dated 2009.07, so it could be a little dated, but it should have what I need.
