Check our comparison chart here. Yes, a user can have several email addresses by creating email aliases. You can add up to 30 email aliases for each user. Yes, you can import emails from legacy environments such as Microsoft®, IBM® Notes® and other systems. To learn more about migrating to Google Workspace, see [Migrate your organisation's data to Google Workspace](#). Gemini is the AI-powered assistant from Google, built directly into Gmail, Docs, Sheets and more, with enterprise-grade security and privacy. [Learn more](#). Gmail makes email easy and efficient. And maybe even fun. With Gmail, you'll get lots of storage space, less spam, fast search and lots more. But how? Switching to Gmail is actually really easy. After you sign up, you'll see the option to transfer over messages and contacts from your old account. That way, you can pick up right where you left off. [Signing up » Signing up for Gmail only takes a few minutes](#). You'll just need to enter some basic information (like your first and last name), choose an available username, and pick a secure password. [Signing in](#) To sign-in to Gmail, visit [gmail.com](#) on your computer or on your phone. If it's your first time using Gmail, you may want to check out this [Getting Started](#) guide. [Transferring mail & contacts »](#) After signing up for Gmail, you can quickly and easily transfer contacts and messages from your old email account. This works for major providers like Yahoo, AOL, Microsoft, and many others (see full list). [How to set it up](#) To import contacts and/or messages, first create a Gmail account and sign in. Then click the gear in the top right corner of your account, select Mail Settings, and visit the Accounts and Import tab. There, you'll see an "Import Mail and Contacts" button. Custom "from" address » If you've been using the same email address for a while, you may want to continue to send mail from that address. Luckily, you can switch to Gmail and still send emails that display your old address in the "From" field. [How to set it up](#) To add a different "From" address, log-in to your Gmail account and click the gear in the top right corner. Select Mail Settings and visit the Accounts and Import tab. Under "Send Email As" click Add another email address. Follow the steps on-screen (or see these detailed instructions) to complete the set up. [Announcing your address »](#) Once you've created a Gmail account you'll probably want to tell your friends and family about your new address. Email your friends from your new account and tell them to contact you there from now on. [Setting up an auto-reply](#) You may also want to set-up an auto-reply (sometimes called an "automatic vacation response") for your old account. That way, anyone who emails your old address will get a message letting them know to reach you at your new Gmail address. Get a custom email address @yourcompany.com, including calendar, docs, video meetings and more, with access from your phone or tablet. [Get a custom email address @yourcompany.com, including calendar, docs, video meetings and more, with access from your phone or tablet](#). [Set how you sign in to Google apps and services](#). You can choose to sign in with a password or add 2-Step Verification, which sends a security code to your phone as an extra security step. On some apps and devices, you can use an app password to sign in to your Google Account. [To sign up for Gmail, create a Google Account](#). You can use the username and password to sign in to Gmail and other Google products like YouTube, Google Play, and Google Drive. [Important: Before you set up a new Gmail account, make sure to sign out of your current Gmail account](#). [Learn how to sign out of Gmail](#). From your device, go to the [Google Account sign in page](#). Click [Create account](#). In the drop down, select if the account is for you: Personal use Child Work or business To set up your account, follow the steps on the screen. [Create an account tip](#): To use Gmail for your business, a Google Workspace account might be better for you than a personal Google Account. With Google Workspace, you get increased storage, professional email addresses, and additional features. [Learn about Google Workspace pricing and plans](#). [Try Google Workspace](#) The username I want is taken You can't create a Gmail address if the username you requested is: Already being used. Very similar to an existing username. For example, if example@gmail.com already exists, you can't use example@gmail.com. The same as a username that someone used in the past and then deleted. Reserved by Google to prevent spam or abuse. Someone is impersonating me If you believe someone has created a Gmail address to try to impersonate your identity, you can: Unfortunately, Gmail is unable to participate in mediations involving third parties regarding impersonation.
