I can still receive the access code via my land line phone number. But at some point my land line will no longer work. I can also sometimes access the code number via my HMRC app. When it works the login screen covers the whole of my iPad tablet screen. When I choose the app option I get a small box at the top of my tablet screen which when I touch on it opens a full screen with the access number. Which I can copy and paste to the other screen and access the account. However more often than not I get a small screen within my tablet screen which you can see on this screenshot. When I choose the app for the code no small box which you press on appears. And so you dont get any access code. You cant enlarge the main screen and if you close it you cancel the access. How can I get the app to open a full screen and get it to work! Also when it does work and I choose the 7 day access it often wants me to login again with a new access code later the same day! Most frustrating! And I know that can be done online if one has a Gateway ID. So this is the problem. She doesn't have one. She does have a NI no. But as far as I'm aware she has none of the other things needed to get an ID. She obviously would have a credit of some sort I believe but given she's had a minimal income over the last 20 years I don't believe she has ever had a credit card or loan. I know she and her husband have never had a mortgage. So is there any way for her to get an ID? And if not how can she get a SP forecast? FYI - phoning HMRC is not an option so anything would have to be done by post. Before you start to use this service, you'll need to sign in using your Government Gateway user ID and password. You'll have to prove your identity to register for Government Gateway if you have not used it before. You'll need your National Insurance number or postcode and 2 of the following: a valid UK passport a UK photocard driving licence issued by the DVLA (or DVA in Northern Ireland) a payslip from the last 3 months or a P60 from your employer for the last tax year details of a tax credit claim if you made one details from a Self Assessment tax return if you made one information held on your credit record if you have one (such as loans, credit cards or mortgages) I'm a Forum Ambassador and I support the Forum Team on Debt Free Wannabe, Old Style Money Saving and Pensions boards. And use the app nowadays. Every so often you need to enter a 5 digit number to access your account. This is currently sent to my landline number as a voice message. How do I go about changing it to my mobile number? Also it gave me the option to have the access number sent to my app. So I tried that out of curiosity but nothing happened and I am not even sure how it would appear!
