September 8, 2018 I am aware of the crash / ground / load bugs, working on fixing them! Soon.Added patch will be loaded: - Adaptive parts - Part skins- 8, 10, 12 width parts + some other new parts - Jupiter and its Moons- Planet Editor - New Planet of best graphics texture, visual effects Lighting - added more free content (in exchange for some ads, the full version Users do not get ads) - improvement of improved menus of the complete savings system, better load times, best load times are public 2 September 2018 \* Adding \* Sharet Sharing (could be buggy for the first few days, it will be stable with time) time system). Electric system. Motor. Engine, large panels, 3 batteries, rtg, big strut and 6x2 tank.fuel transfer.nownw flame effects.new expansion sales page. \* Solved \* Frecciation arrow.sandbox settings bug.fix used many other small bugs. 07 May 2018 Added a new wheel (free version). OPTIONS SANDBOX SANDBOX (parts expansion). Price prices for other countries (Russia: 270> 200, Brazil 14> 8, Poland 16> 12, India 260> 200, etc. etc.). You can now move the camera to Game View.Add to a new docking tutorial.Addition community connections. Fairings Now take away from any part of no fairing when it is distributed. Fixed: Ground Teleport Bug, Extra Speed Bug 6, Bug Songure etc. March 28, 2018 Added: Careni, probes, RCS, Solar panels and a new engine [free]. Increated Build Space Height of 2 [free]. Option to get an extension of spare parts with: docking, rover and large parts and extra space (the extension also includes all future parts), I really tried to make this the best deal I can: Pquich Fix: Pquich Fix: problem Fixed with the purchase, if your problem is still there, try restarting or reinstalling. Performance improvements. Add the Debrri button. March 16, 2018 This improvement port update to the Build.parts system now snap it easily to each other. Tarts now try not to be placed one on another. This is many other small changes I did should make the construction much easier. I Feedback of the Build System, I still read all the reviews. Addicts on the side of the side of the side (under utility). PerformanceFixed problems. Performance.fixed elements that caused some parts to load incorrectly. For many updates, but this are things that I need to solve. 8 February 2018 I read all your reviews, yes, all! (I can't answer all of them, sorry), I am aware of the problems with the new build system and working as a crazy on setting them. RocketFixed Rocket not launching (I'm sorry for this). Container. Zoom Pulsans.parts now appear above your finger, this should help you see where you are placing your piece. Add a correct automatic system that helps with parts that snaking.landing legs and parachutes now turn automatically to stick to surfaces. 06 February 2018 Fixed the bug in which the rockets would compete at 25 km when the weather would break (I really hope it is fixed now). Bug to fall the rockets to fall through the ground ground. Bug that causes the rocket disappear when you leave the Warp.Added time settings: option to set the game to 30 or 60 fps.Option to disable the automatic screen rotation. Allows applications to open network outlets. Applications to access information about Networks.Page 2 SpaceFlight Simulator | Mod apk A e 4. - "unlocked (paid content) SpaceFlight Simulator: this is a game to build your rocket from the parties and throwing it to explore the space! Use the parts to create any rocket you want! Rocket physics completely Accurate! Planets in a realistically scale! Open Universe, if you see something in the distance, you can go there, without limits, no invisible walls! Realistic orbital mechanics! Reaching orbit, earth on the moon or on Mars! Recreate your SpaceX Apollo Favorite Apollo e The launch of NASA! What is the mods? a mod For "changes") it is an alteration where someone is usually a player, changes some aspect of a video game. The online communities are changing video games to make them better, more strange, and much more wonderful. For example: players of the agriculture simulator as old tractions, but the basic game does not have it, so they create it. Or maybe you want New Euro Truck Simulator Skin Skin, just download mod and you can change the skin. There are only a few examples because I mods are incredible and make games much better. Download Modded Apkremove Playstore VersionInstall Modded Apkoptional: A, Copy OBB OBB To sdcard / android / obb / a, (only if obbust is included if you do not ignore this step) Play the gameenjoy =) How to play "SpaceFlight Simulator | Mod Apk" on PC?
