This privacy policy sets out how we use and protect any information that you give us when you use this website. We are committed to ensuring that your privacy is protected. Should we ask you to provide certain information by which you can be identified when using this website, then you can be assured that it will only be used in accordance with this privacy statement. We may change this policy from time to time by updating this page. You should check this page from time to time to ensure that you are happy with any changes. What we collect We may collect the following information: name and job title contact information including email address demographic information such as postcode, preferences and interests other information relevant to customer surveys and/or offers What we do with the information we gather We require this information to understand your needs and provide you with a better service, and in particular for the following reasons: Internal record keeping. We may use the information to improve our products and services. We may periodically send promotional emails about new products, special offers or other information which we think you may find interesting using the email address which you have provided. From time to time, we may also use your information to contact you for market research purposes. We may contact you by email, phone, fax or mail. We may use the information to customise the website according to your interests. Security We are committed to ensuring that your information is secure. In order to prevent unauthorised access or disclosure, we have put in place suitable physical, electronic and managerial procedures to safeguard and secure the information we collect online. How we use cookies A cookie is a small file which asks permission to be placed on your computer's hard drive. Once you agree, the file is added and the cookie helps analyse web traffic or lets you know when you visit a particular site. Cookies allow web applications to respond to you as an individual. The web application can tailor its operations to your needs, likes and dislikes by gathering and remembering information about your preferences. We use traffic log cookies to identify which pages are being used. This helps us analyse data about webpage traffic and improve our website in order to tailor it to customer needs. We only use this information for statistical analysis purposes and then the data is removed from the system. Overall, cookies help us provide you with a better website by enabling us to monitor which pages you find useful and which you do not. A cookie in no way gives us access to your computer or any information about you, other than the data you choose to share with us. You can choose to accept or decline cookies. Most web browsers automatically accept cookies, but you can usually modify your browser setting to decline cookies if you prefer. This may prevent you from taking full advantage of the website. Links to other websites Our website may contain links to other websites of interest. However, once you have used these links to leave our site, you should note that we do not have any control over that other website. Therefore, we cannot be responsible for the protection and privacy of any information which you provide whilst visiting such sites and such sites are not governed by this privacy statement. You should exercise caution and look at the privacy statement applicable to the website in question. Controlling your personal information You may choose to restrict the collection or use of your personal information in the following ways: whenever you are asked to fill in a form on the website, look for the box that you can click to indicate that you do not want the information to be used by anybody for direct marketing purposes, you may change your mind at any time by writing to or emailing us. We will not sell, distribute or lease your personal information to third parties unless we have your permission or are required by law to do so. We may use your personal information to send you promotional information about third parties which we think you may find interesting if you tell us that you wish this to happen. If you believe that any information we are holding on you is incorrect or incomplete, please write to or email us as soon as possible at the above address. We will promptly correct any information found to be incorrect. Roof Rack Mounting Brackets for Fixed Solar Panel These mounting brackets make it easy to affix your solar panels to the roof rack of your vehicle, caravan or trailer. The included T-bolts are compatible with the channels of most major brand roof racks including Rhino Rack, Yakima and Rola. Their low profile allows for sufficient airflow under the panels without unduly compromising aerodynamics. Key features Constructed from strong, lightweight materials Easy DIY install Comes with all required fittings 4x Mounting Brackets 8x M8 Channel (T) Bolts 12x M8 flat washers 4x M8 x 10mm A2-70 grade bolts 12x M8 nylon lock nuts 12x M8 spring washers All Hardkorr products are manufactured using the highest quality materials. We are confident that they are the most durable in the market and will give you many years of reliable service. We stand behind this product with a comprehensive 1-year Australian warranty and a 30-day money back guarantee. Snapped Had these for 2 years now without going on too many dirt roads, maybe 3 times a year and 2 out of the 4 have snapped. I hate to see what happens on more bumpy roads. Hi there, thank you for leaving a review about our Roof Rack Mounting Brackets. We apologize for any inconvenience caused by the snapping of the brackets. We have taken note of this and have noticed that you have modified the brackets. This may have led to the fault. Have a great day!
