# Reading for improving english

Reading books for improving english. Paragraph reading for improving english. Story reading for improving english.

Read fictional books (also called romances) is one of the best and cheaper ways to improve your English. With my own students, I realize the difference in class among those who read regularly romances in English and those that do not. Those who read regularly, improve their English faster and obtain better exam results. The big problem is to know which books read. But before I advise you to select the right books for your level, let's look at what to read in English will improve your level. Although reading in English help you learn new vocabulary and expressions, you will also help you remember vocabulary and grammatical structures you have already learned. As if learning to play violation, the best way to improve your English is through practical and repetition. Reading books in English also helps you to practice using the context of a phrase of guessing the meaning of the words and expressions you do not know. Using the context for guessing meaning is fundamental to determine English and remember new vocabulary. To know how to use the context to improve your English, read my article on how to improve your English. " Choosing a book like I said before, the big problem is to choose the right book for you. It must be quite difficult that you learn new vocabulary, but not very difficult. If you choose a book that is very hard or complex for your English level, it will be confused, frustrated and stop reading the book. How to know if a book is right for you the only way to know if a romance in English is right for you, it is to read the first pages of the book. If you do not know the meaning of more than five words / phrases in every page, then you know that the book is very difficult for you. If you know every word or expression, you read in the first pages of the book, then the book will be very easy for you (you will not be learning no new vocabulary). A romance will be right for you, if in the first pages you understand the situation (where they are, why are they there, what they are doing etc ...). But he does not know the meaning of between two to five words or express phages. Read the first few pages before buying to save money, you should always read the first few pages of any book / novel that you want to read in English before you buy. Although you can go to a store / store to do this, the easiest way to do this is to look at a book that you are thinking about reading / buying at Amazon.com. For most books, the site provides free visualization / sample-sample of the first pages. If there is a book-visualization / sample of the book, you will see 'look inside' written above the book photo. To read the first pages of the book / romance, click on the photo of the book and then go to the chapter one. If the book has a Kindle version, click the tab for this (it is best to read the words). Novels for people who learn English to read books written for English speakers of English, you can also read books that have been written or adapted for people who learn English as well. These books are called 'readers' and you can choose a book especially for your English level (for example, beginner, intermediate etc ...). Unfortunately, there is no option to "look into" for these types of books / novels at Amazon.com. So you have to find one in a store / shop and read the first few pages there, or buy online without looking at the first pages. Recommend books to help you choose a book, I have created a list of 10 novels that are suitable for people who learn English that have an english or higher level of English. Read articles in English, as well as read novels, you should also read articles online and news (at BBC). The advantage of doing this is that they are shorter than novels and you can learn the vocabulary in a of different themes. This is particularly useful for people who are studying to take an inspection in English (for example, Cambridge FCE, CAE, IELTS etc ...), where where It needs to improve your vocabulary and knowledge of lots of different topics / english subjects to do well in the exam. The problem is that it can be difficult to find an online article that is right for your level. If you prefer to read articles instead of novels or are studying for an English exam, we have created some ebooks to help people with an intermediary or superior intermediary of English improve their reading and vocabulant ability River. To learn more about them, click here and select your English level at the next page. Choose language ... Your answer is probably a single. But you knew that to become more fluent, do you need lots and lots of practices? And to do this, you need more hours of contact with the English language. That is, you need a lot of entry you can actually understand. You know, you can be surrounded by English speakers all the time, but if you can suite them, then you won't progress as quickly. What should you do? Well, a way to increase your contact hours with English that you can actually understand is by means of a practical reading of extensive reading. The idea is that you choose books to read that they are very easy to understand, and you then read many of them. For most students, this involves the use of graduated readers, that is, written books using the most common words in English for people who are not yet fluent in English. And if you read on a level only or just below your real level, then you can read easily and without problems. So you can concentrate on the real content of what you are reading instead of the language itself.when you can just enjoy the story, so you can forget about tongue. And then guess what? You are exposing your mind to many different patterns in English and again. And if you see a new word of the vocabulary, you just jumped on and infer the meaning. You will see it again anyway. You do not really need a dictionary. You simply internalize these vocabulary words and phrases patterns. And then when you're going to say, the patterns can be expressed through your speech as long as you have seen them as many times. Interesting, is not it? If you want to try the extensive reading, you will need to have some readers graduated from the library. Some serious gradual reader are Oxford Oxford Active Cambridge readers, active reading penguin, and so on. If your local library does not have any graduated readers, then ask for your librarian to buy them.
